CITY WATERWORKS FOR COUNTRY HOMES.

[Nell's Patent]

Compressed air for elevating water and giving it pressure. At small expense you can secure water from your well or cistern for every room ready to flow when the faucet is turned. The pressure is such as will throw water from a hose to the height of the ordinary house in case of fire. Your lawns can be beautified with fountains. The grass and garden can be watered by means of a hose attached to lawn sprinkler or hydrant. Will be glad to mail you circular and prices, giving all necessary information, upon application.

GUIDE FOR CO., ST. LOUIS, MO.

The Kansas City Stock Yards

Are the most commodious and best appointed in the Missouri valley. The fact that higher prices are realized here than in the east is due to the location at these yards of eight packing houses, with an aggregate daily capacity of 8,000 cattle and 37,300 hogs, and the regular attendance of sharp, competitive buyers for the packing houses of Omaha, Chicago, St. Louis, Indianapolis, Cincinnati, New York and Boston. The sixteen railroads running into Kansas City have direct connection with the yards.

My horses were selected direct from the breeders of Europe, and are descendants of the most noted prize winners of the old world. I paid spot cash for all my stock and got the best at great bargains and was not obliged to take the refuse from dealers at exorbitant figures in order to obtain credit, thereby enabling me to sell better animals at better prices, longer time and a lower rate of interest than almost any other dealer in America.

I have also the most superior system of organizing companies and stock syndicates in this country, and insure satisfaction. I call special attention to my references. By these it will be seen that I am not handling on commission the refuse horses of dealers in Europe. With me you get a square transaction, a good animal, a valid guarantee, and will compete with any firm in America on prices and terms besides.
